ADDITIONAL SKILLS

- Microsoft Office
- Responsive Design
- Problem Solving
- Code Optimization

I'm an aspiring web developer dedicated to crafting captivating user interfaces. Proficient in React and various frameworks, I specialize in bringing design concepts to life with responsive, interactive web experiences. With a passion for coding, I'm driven to continuously learn and enhance my skills. I thrive on transforming ideas into functional, visually appealing websites. Excited to explore backend development to broaden my expertise.

PROJECTS

React Portfolio Website

, 80 days

- Showcase of React expertise and clean design: My portfolio highlights React front-end skills with clean code and intuitive UI, reflecting commitment to excellence and growth.
- Integrated display of skills and achievements: Seamlessly blending education and professional journey, it offers a comprehensive view of skills, projects, and ongoing development.

Inotebook React-app

, 31 Days

- iNotebook: A cutting-edge React project revolutionizing note-taking with a seamless platform for writing, deleting, and securely saving notes.
- Features: Intuitive interface, advanced privacy, robust login, elevating note-taking with convenience and privacy.

MINI PROJECTS

Text Converter App

,15 Days

- Text converter: A React-based website enabling users to change text cases, offering options like upper- and lower-case transformations.
- User-friendly interface: With simplicity and ease of use, it provides a convenient platform for transforming text effortlessly.

News Based API App

,15 days

- News API app: Presents news articles in small card sections, allowing users to browse daily news titles, descriptions, and photos. Users can access original news websites via provided links.
- Seamless news exploration: Features an intuitive interface and interactive design, enabling easy navigation through news summaries and visuals. Provides direct access to news sources for in-depth reading.
